

MAP to Khan Academy:

Khan Academy Practice Exercises Correlated to RIT for Common Core Math MAP Grades 2-5

About this Document

This document correlates MAP® sub-goals and RIT ranges to Khan Academy® exercises. The Khan exercises are interactive problems for students with instant feedback:

Geometry
RIT Range: 192 - 203
[Categorize quadrilaterals](#)

Categorize quadrilaterals Get 5 correct in a row ✓✓✓✓✓

Which of these shapes are quadrilaterals but not squares?

Select all that apply.

Answer
Select all the correct answers.

Check Answer

Khan Academy exercises teach through interactive problems

Having these exercises correlated to RIT ranges means you can use them in conjunction with your flexible student groupings that are also informed by RIT score results. The exercises are also useful for targeting learning in each student's zone of proximal development (Vygotsky).

The correlation between MAP RIT scores and the Khan Academy exercises was determined by using our 2011 norms data to approximate grade levels, which were then matched to the corresponding Common Core State Standards (CCSS). Teachers in states that have not adopted the CCSS may still find these resources valuable by relating goals or sub-goals that are similar to CCSS goals and sub-goals.

NWEA plans to work with Khan Academy to update these links twice a year as new exercises are developed.

How to Use

1. Use MAP reports to find the RIT scores for a given sub-goal.
2. In this document, locate that same goal, approximate RIT range, and sub-goals.
3. To choose appropriate Khan Academy exercises:
 - a. Consider both the name of the exercise and the CCSS standard.
 - b. Click the link and try the exercise yourself.
Note: When you're in Khan Academy, the links to videos and other resources add context to the actual exercise but are not necessarily correlated to MAP.
4. In the browser window where the exercise opened, note or copy the Web address URL.
5. Optionally deliver exercises to students. For example:
 - Paste the URL into an online document for students to access.
 - Present the exercise in the classroom.
 - Use for parent-teacher conference discussion.

Limitations

The instructional suggestions presented in this document are intended to provide supplementary resources based on available Khan Academy exercises and are not intended to replace other options. MAP/MPG data should be used as one of many data points for instructional decisions rather than as a placement guide.

Terms of Use

These Terms of Use permit you to use this document for your personal, non-commercial use only. You must not reproduce, distribute, modify, create derivative works of, publicly display, publicly perform, republish, download, store or transmit any of the material on this document, except you may print or download one copy of a reasonable number of pages of this document for your own personal, non-commercial use and not for further reproduction, publication or distribution. RIT Range: < 160

[Practice comparing shapes based on their number of sides, number of corners, and side-lengths.](#) K.G.B.4

[Practice combining shapes to make other shapes.](#) K.G.B.6

[Practice identifying circles, triangles, squares, and rectangles.](#) K.G.A.1

[Practice more challenging problems identifying circles, triangles, squares, and rectangles.](#) K.G.A.2

[Decide if objects are above, below, beside, in front of, or behind other objects.](#) K.G.A.1

RIT Range: 161-178

[Practice identifying circles, triangles, squares, rectangles, rhombuses, trapezoids, and hexagons.](#) 1.G.A.1

[Practice dividing shapes into 2 or 4 equal sections.](#) 1.G.A.3

RIT Range: 179-191

[Practice telling if shapes are divided into 2 or 4 equal sections.](#) 2.G.A.3

[Practice figuring out how many equal-sized square fill a rectangle.](#) 2.G.A.2

[Practice identifying quadrilaterals, pentagons, hexagons, and octagons.](#) 2.G.A.1

RIT Range: 192-202

[Classify and compare rectangles, rhombuses, and squares.](#) 3.G.A.1

[Identify unit fractions when given a visual or a context.](#) 3.G.A.2

[Practice telling if a shape has been divided into equal parts.](#) 3.G.A.2

RIT Range: 203-212

[Determine if an angle is acute, right, or obtuse. A protractor is provided.](#) 4.G.A.1

[Draw and identify lines of symmetry. Create and identify symmetrical shapes.](#) 4.G.A.3

[Classify shapes based on pictures or attributes, such as angle types and side-lengths.](#) 4.G.A.2

[Draw rays, lines, and line segments with given points.](#) 4.G.A.1

[Practice drawing lines of symmetry and creating symmetrical figures.](#) 4.G.A.3

[Practice drawing parallel and perpendicular lines, line segments, and ray.](#) 4.G.A.1

[Create an acute, right, or obtuse angle using a given vertex.](#) 4.G.A.1

Geometry

Reason with Shapes, Attributes, & Coordinate Plane

Standards Alignment

RIT Range: 203-212

Practice identifying triangles by their angles as acute, right, or obtuse.	4.G.A.2
Identify quadrilaterals based on pictures or attributes. Quadrilaterals included are parallelograms, rhombuses, rectangles, and squares.	4.G.A.2
Determine if angles in shapes and pictures are acute, right, or obtuse.	4.G.A.1
Recognize rays, lines, and line segments in geometric figures.	4.G.A.1
Determine if angles in shapes and pictures are acute, right, or obtuse.	4.G.A.1
Recognize parallel and perpendicular lines in geometric figures and pictures.	4.G.A.1
Practice identifying triangles by their side-lengths as equilateral, isosceles, or scalene.	4.G.A.2

RIT Range: 213-219

Find the distance between points, graph points, and interpret data on coordinate planes to solve word problems.	5.G.A.2
Graph and find the distance between point in first quadrant of coordinate plane.	5.G.A.1 5.G.A.2
Plot a given point on the coordinate plane.	5.G.A.1 5.G.A.2
Identify points in the first quadrant of a coordinate plane.	5.G.A.1
Identify and compare shapes based on their attributes. Shapes include triangle types, quadrilateral types, pentagons, and hexagons.	5.G.B.3 5.G.B.4
Identify and graph corners on shapes graphed in the first quadrant of a coordinate plane.	5.G.A.1 5.G.A.2

RIT Range: 220-223

Reflecting points on the coordinate plane	6.NS.C.8
---	----------

RIT Range: 221 - 225

Points on the coordinate plane	6.NS.C.6
--	----------

RIT Range: 220-223

Practice drawing shapes on the coordinate plane.	6.G.A.3
More challenging problems involving drawing shapes on the coordinate plane.	6.G.A.3
Challenge problems involving the coordinates of the vertices of the quadrilaterals	6.G.A.3

Geometry

Reason with Shapes, Attributes, & Coordinate Plane

Standards Alignment

RIT Range: 224-227

[Match 3D objects with their 2D cross-sections.](#)

7.G.A.3

Measurement and Data

Geometric Measurement and Problem Solving

Standards Alignment

RIT Range: < 160

[Practice comparing 2 objects to see which is bigger, smaller, taller, shorter, or longer.](#)

K.MD.A.2

RIT Range: 161-178

[Compare the lengths of 2 objects indirectly by using a third object.](#)

1.MD.A.1

[Measure objects with same-size length units without gaps or overlaps.](#)

1.MD.A.2

[Practice ordering 3 objects by length.](#)

1.MD.A.1

[Practice telling time on analog clocks to the hour or half hour.](#)

1.MD.B.3

RIT Range: 179-191

[Estimating lengths](#)

2.MD.A.3

RIT Range: 179-191

[Practice adding and subtracting using the number line. Numbers used are 100 or less.](#)

2.MD.B.6

[Find the total value when given an amount of coins or dollars.](#)

2.MD.C.8

[Add and subtract lengths to solve word problems.](#)

2.MD.B.5

[Measure objects using a ruler.](#)

2.MD.A.1

[Tell time on unlabeled analog clocks.](#)

2.MD.C.7

[Tell time on labeled analog clocks.](#)

2.MD.C.7

RIT Range: 192-202

[Find the area of shapes by counting the unit squares inside them.](#)

3.MD.C.5 | 3.MD.C.6

[Use area models to represent the distributive property in finding area of rectangles.](#)

3.MD.C.7

[Find area of rectangles and squares by multiplying side lengths.](#)

3.MD.C.7

[Compare the areas and perimeters of rectangles when given a context or picture.](#)

3.MD.D.8

Measurement and Data

Geometric Measurement and Problem Solving

Standards Alignment

RIT Range: 192-202

Compare the areas of rectangles represented in images or contexts.	3.MD.C.7
Practice decomposing figures into rectangles to find area. Some figures are on grids.	3.MD.C.7
Practice decomposing irregular shapes to find their area.	3.MD.C.7
Practice estimating the mass of real life objects using grams and kilograms.	3.MD.A.2
Practice estimating the volume of real life objects using milliliters and liters.	3.MD.A.2
Practice finding a missing side length on a rectangle when given the other side length and the area.	3.MD.C.7
Find a missing side length for a figure when given the perimeter.	3.MD.D.8
Practice finding the area of rectangles by counting unit square. Create rectangles with a given area by covering unit squares.	3.MD.C.6
Find area of rectangles by multiplying side-lengths.	3.MD.C.7
Solve word problems involving mass. Estimate the mass of items.	3.MD.A.2
Practice measuring the side-lengths of a rectangle to find its area.	3.MD.C.7
Practice measuring side lengths to find perimeter.	3.MD.D.8
Count unit squares and partial unit squares to find the area of shapes.	3.MD.C.6
Calculate the perimeter of a shape from its side lengths.	3.MD.D.8
Find perimeter of figures when given an image or context.	3.MD.D.8
Practice solving real world word problems involving perimeter.	3.MD.D.8
Practice telling time using analog clocks. Some clocks do not have labels.	3.MD.A.1
Solve a word problem to find the duration of an event. Both analog or digital clocks are included.	3.MD.A.1
Use a number line to solving time word problems.	3.MD.A.1
Practice finding the difference between times given on two analog clocks.	3.MD.A.1
Compare the amount of unit squares that cover figures.	3.MD.C.5
Solve word problems involving volume. Estimate the volume of items.	3.MD.A.2

RIT Range: 203-212

Find the area of rectangles and squares when given side lengths. Find the side length of a square when given the area.	4.MD.A.3
Find the missing side length of a rectangle when given its perimeter or area. Compare perimeters and areas of rectangles.	4.MD.A.3

Measurement and Data

Geometric Measurement and Problem Solving

Standards Alignment

RIT Range: 203-212

Find the area of rectangles and squares when given side lengths. Find the side length of a square when given the area.	4.MD.A.3
Estimate the size of angles when given a picture or a situation.	4.MD.C.5
Practice converting a US customary measure of volume to a smaller unit.	4.MD.A.1
Practice converting a metric measure of mass to a smaller unit.	4.MD.A.1
Practice converting a US customary measure of length to a smaller unit.	4.MD.A.1
Practice converting a metric measure of volume to a smaller unit.	4.MD.A.1
Practice converting a metric measure of length to a smaller unit.	4.MD.A.1
Practice converting a US customary measure of mass to a smaller unit.	4.MD.A.1
Find an angle's measure when given the measures of its parts.	4.MD.C.7
Use a protractor to construct angles.	4.MD.C.6
Practice estimating the length of real life objects using US customary units.	4.MD.A.1
Practice estimating the length of real life objects using metric units.	4.MD.A.1
Practice estimating the mass of real life objects using US customary units.	4.MD.A.1
Practice estimating the volume of real life objects using US customary	4.MD.A.1
Practice converting a measure of time to a smaller unit.	4.MD.A.1
Measure angles using a protractor.	4.MD.C.6
Solve word problems that involve converting between U.S. dollars and cents and converting U.S. dollars to other units of money, like pesos.	4.MD.A.2
Solve word problems to find what time an event occurred or how long an event lasted.	4.MD.A.2
Name angles by their vertex, endpoints, or labels.	4.MD.C.5
Practice estimating the length of an event using seconds, minutes, and hours.	4.MD.A.1

RIT Range: 213-219

Practice measuring angles using a circle protractor, solve word problems about angles as part of a circle.	5.MD.C.5
Solve word problems that involve converting between metric measures of distance, volume, and mass, as well as measures of time.	5.MD.A.1
Convert between metric measures of distance, volume, and mass.	5.MD.A.1
Convert between US customary measures of distance, volume, and mass.	5.MD.A.1

Measurement and Data

Geometric Measurement and Problem Solving

Standards Alignment

RIT Range: 213-219

Solve word problems that involve converting between US customary measures of distance, volume, and mass.	5.MD.A.1
Find the volume of irregular 3D figures by dividing the figures into rectangular prisms and finding the volume of each part.	5.MD.C.5
Find volume of a rectangular prism with labeled side lengths. Find a missing side length on a rectangular prism when given the volume.	5.MD.C.5
Find volume of rectangular prisms to solve word problems.	5.MD.C.5
Find volume of 3-dimensional figures by counting unit cubes.	5.MD.C.5
Practice problems that help you see why the volume formula makes sense.	5.MD.C.5
Recognize volume as an attribute of solid figures and understand concepts of volume measurement.	5.MD.C.4 5.MD.C.5

RIT Range: 220-223

Basic rate problems	6.RP.A.3b
-------------------------------------	-----------

RIT Range: 220-223

Practice finding the area of parallelograms given base and height.	6.G.A.1
Practice finding the area of right, acute, and obtuse triangles from a diagram.	6.G.A.1
Practice finding the areas of complex shapes that are composed of smaller shapes.	6.G.A.1
Practice finding the areas of triangles and quadrilaterals on grids.	6.G.A.1
Practice finding the areas of trapezoids.	6.G.A.1
Practice solving problems involving triangles, parallelograms, and composite figures. Exercises include decimals, fractions, and word problems. Area of circles is not included.	6.G.A.1
Practice finding the volume of rectangular prisms that have fractional side lengths.	6.G.A.2
Practice solving volume word problems involving objects like fish tanks, truck beds, and refrigerators.	6.G.A.2

RIT Range: 226 - 230

Discount, tax, and tip word problems	7.EE.B.3
Rate problems 1	7.RP.A.1

RIT Range: 224-227

Measurement and Data

Geometric Measurement and Problem Solving

Standards Alignment

RIT Range: 224-227

[Find the areas of shaded regions which are combinations of squares, triangles, and circles.](#)

Measurement and Data

Represent and Interpret Data

Standards Alignment

RIT Range: < 160

[Practice counting to see which group has the most things in it.](#)

K.MD.B.3

RIT Range: 161-178

[Read and interpret bar graphs.](#)

1.MD.C.4

RIT Range: 179-191

[Practice creating line plots \(dot plots\) from data sets.](#)

2.MD.D.9

[Practice creating bar graphs \(bar charts\) from data sets.](#)

2.MD.D.9

[Practice creating picture graphs \(pictographs\) from data sets.](#)

2.MD.D.9

[Use bar graphs to solve addition and subtraction word problems.](#)

2.MD.D.10

[Answer questions using line plots and data sets.](#)

2.MD.D.9

[Read and interpret picture graphs.](#)

2.MD.D.10

RIT Range: 192-202

[Create a bar graph with the data given.](#)

3.MD.B.3

[Record measurements on line plots \(also called dot plots\).](#)

3.MD.B.4

[Create and interpret picture graphs.](#)

3.MD.B.3

[Read and interpret a double bar graphs.](#)

3.MD.B.3

[Interpret picture graphs to answer questions about a context.](#)

3.MD.B.3

[Interpret bar graphs to answer questions about a context.](#)

3.MD.B.3

[Use picture graphs to solve word problems.](#)

3.MD.B.3

RIT Range: 203-212

[Create and interpret dot plots using data with fractions. Fraction operations include addition and subtraction.](#)

4.MD.B.4

Measurement and Data

Represent and Interpret Data

Standards Alignment

RIT Range: 213-219

[Interpret fraction data on dot plots to solve word problems.](#) 5.MD.B.2

RIT Range: 220-223

[Practice reading information presented in box plots.](#) 6.SP.B.4

[Practice creating dot plots. Dot plots are very similar to frequency tables, but they make it easier to see the data.](#) 6.SP.B.4

[Practice creating frequency tables from small data sets.](#) 6.SP.B.4

[Practice creating histograms.](#) 6.SP.B.4

RIT Range: 192-202

[Compare two fractions that have either the same numerator or denominator.](#) 3.NF.A.3

[Compare two fractions that have the same denominator using greater and less than symbols.](#) 3.NF.A.3

[Compare two fractions that have the same numerator using greater and less than symbols.](#) 3.NF.A.3

[Practice comparing fractions with the help of visual aids.](#) 3.NF.A.3

[Identify unit fractions when given a visual or a context.](#) 3.NF.A.1

[Graph and identify equivalent fractions on a number line.](#) 3.NF.A.3

[Identify and create equivalent fractions using visual models.](#) 3.NF.A.3

[Locate 1 on a number line labeled with 0 and a unit fraction.](#) 3.NF.A.2

[Plot and spot fractions on the number line.](#) 3.NF.A.2

[Use unit fractions to think about the location of other fractions on the number line.](#) 3.NF.A.2

[Identify the fraction of a whole that is shaded.](#) 3.NF.A.1

Number and Operations

Number and Operations - Fractions

Standards Alignment

RIT Range: 192-202

Practice identifying numerators and denominators in fractions.	3.NF.A.1
Identify the fraction of a whole that is shaded.	3.NF.A.1
Practice telling if a shape has been divided into equal parts.	3.NF.A.1

RIT Range: 203-212

Practice adding fractions that have denominators of 10 and 100.	4.NF.C.5
Add two fractions with the like denominators.	4.NF.B.3
Practice comparing decimals and fractions. Decimals and fractions in these problems are limited to tenths and hundredths for easier comparison.	4.NF.C.7
Practice rewriting fractions to have the same denominator.	4.NF.A.2
Practice comparing decimals. Decimals in these problems are limited to tenths and hundredths.	4.NF.C.7
Practice comparing two fractions with different denominators with greater and less than symbols.	4.NF.A.2
Practice comparing fractions and mixed numbers that have unlike denominators.	4.NF.A.2
Practice comparing decimals with the help of visual aids.	4.NF.C.7
Practice rewriting decimals as fractions. These problems use decimals with tenths and hundredths.	4.NF.C.6
Practice rewriting fractions as decimals. Fractions in these problems have denominators of 10 and 100.	4.NF.C.6
Practice writing a fraction as a mixed number and vice versa.	4.NF.B.3
Practice writing decimal numbers shown in grid diagrams.	4.NF.C.6
Practice finding decimal numbers on the number line. Decimals are limited to tenths in these problems.	4.NF.C.6
Practice finding decimal numbers on the number line. Decimals are limited to hundredths.	4.NF.C.6
Practice writing decimal numbers in word form and number form.	4.NF.C.6
Graph tenths between 0 and 1 on the number line.	4.NF.C.6
Graph hundredths between 0 and 0.1 on a number line.	4.NF.C.6
Practice breaking apart (decomposing) some number of hundredths into tenths and hundredths.	4.NF.C.5
Practice using the same whole to find equivalent fractions.	4.NF.A.2
Practice making equivalent fractions by multiplying the numerator and denominator by the same number.	4.NF.A.1

Number and Operations

Number and Operations - Fractions

Standards Alignment

RIT Range: 203-212

Practice writing equivalent fractions with denominators of 10 and 100.	4.NF.C.5
Practice writing equivalent fractions with denominators of 10 and 100. These problems give you pictures to help you find the answer.	4.NF.C.5
Practice these problems to see how decimals and fractions can represent the same number.	4.NF.C.6
Practice matching fraction diagrams to multiplication expressions.	4.NF.B.4
Practice ordering 3 fractions from least to greatest.	4.NF.A.2
Solve a subtraction problem with two fractions with like denominators.	4.NF.B.3
Practice seeing how one whole-number-times-fraction problem is the same as another. Find equivalent multiplication expressions.	4.NF.B.4
Practice finding equivalent fractions. These problems show you pictures of fractions to help you out.	4.NF.A.1
Practice comparing fractions by looking at pictures. Fractions in these problems do not have common denominators.	4.NF.A.2

RIT Range: 213-219

Fraction multiplication as scaling	5.NF.B.5b
--	-----------

RIT Range: 213-219

Practice adding fractions that have different denominators.	5.NF.A.1
Practice adding and subtracting mixed numbers with different denominators. No regrouping required.	5.NF.A.1
Challenge problems involving adding and subtracting fractions that have unlike denominators.	5.NF.A.1
Practice solving fraction addition and subtraction word problems. The fractions in these problems have unlike denominators.	5.NF.A.2
Practice adding and subtracting mixed numbers with different denominators. Regrouping required.	5.NF.A.1
Practice dividing a whole number by a unit fraction.	5.NF.B.7
Divide a unit fraction by a whole number.	5.NF.B.7
Practice dividing unit fractions by whole numbers with visual models.	5.NF.B.7
Learn how to divide whole number by unit fractions with visual models.	5.NF.B.7
Practice multiplying two fractions.	5.NF.B.4
Practice multiplying mixed numbers.	5.NF.B.4
Solve and interpret fraction multiplication word problems.	5.NF.B.6

Number and Operations

Number and Operations - Fractions

Standards Alignment

RIT Range: 213-219

Practice subtracting fractions that have different denominators.	5.NF.A.1
Practice understanding that the fraction bar really means division.	5.NF.B.3
Practice word problems that involve using the fraction bar as division.	5.NF.B.3
Use area models, number lines, and tape diagrams to multiply a whole number times a fraction.	5.NF.B.4
Use area models and tape diagrams to multiply a fraction times a fraction.	5.NF.B.4
Practice adding and subtracting fractions that have different denominators. Problems have fraction diagrams.	5.NF.A.1

RIT Range: 220-223

Rational numbers on the number line	6.NS.C.6c
One-step equations with multiplication and division	6.EE.B.7

RIT Range: 220-223

Practice dividing fractions by fractions. No negative numbers are used in this exercise.	6.NS.A.1
Practice solving word problems by dividing fractions by fractions.	6.NS.A.1
Understanding dividing fractions by fractions	6.NS.A.1

RIT Range: 224-227

Practice simplifying complex fractions.	7.NS.A.3
---	----------

Number and Operations

Number and Operations in Base Ten

Standards Alignment

RIT Range: < 160

Addition within 5	K.OA.A.5
Subtraction within 5	K.OA.A.5

RIT Range: 161 - 178

Addition within 20	1.OA.C.6
------------------------------------	----------

RIT Range: 161-178

Practice solving problems like $34+5$ and $34+50$.	1.NBT.C.4
--	-----------

Number and Operations

Number and Operations in Base Ten

Standards Alignment

RIT Range: 161-178

Practice solving problems like $34+1$ and $34+10$.	1.NBT.C.4 1.NBT.C.5
Practice solving problems like $24 + 45$.	1.NBT.C.4
Practice breaking apart problems like $23+45$ into problems like $20+40+3+5$.	1.NBT.C.4
Practice adding numbers like $45+8$.	1.NBT.C.4

RIT Range: 179-191

Regrouping: two-digit number minus one-digit number	2.NBT.A.4
---	-----------

RIT Range: 179-191

Practice adding and subtracting numbers like 554 and 237 using a number line. All numbers are less than 1000.	2.NBT.B.7
Practice adding two-digit numbers. All numbers in these problems are 100 or less.	2.NBT.B.5
Practice adding and subtracting numbers like 54 and 37 using a number line. Numbers used in these problems are all less than 100.	2.NBT.B.7
Practice solving problems like $344+20$ and $344+200$.	2.NBT.B.7
Practice solving problems like $243 + 452$.	2.NBT.B.7
Practice breaking apart big addition problems using place value. For example, $234+567$ is the same as $200+500+30+60+4+7$.	2.NBT.B.7
Practice adding 2-digit numbers like $43+27$ that have sums that are multiples of 10.	2.NBT.B.5
Practice adding two-digit numbers by making groups of ten.	2.NBT.B.5
Practice telling which strategies work for adding two numbers within 100.	2.NBT.B.7
Practice solving problems like $67-5$ and $67-50$.	2.NBT.B.5
Practice subtracting. All numbers in these problems are 20 or less.	2.NBT.B.5
Practice subtracting 2-digit numbers.	2.NBT.B.5
Practice subtracting 1, 10, or 100 from a number.	2.NBT.B.7
Practice solving problems like $452 + 241$.	2.NBT.B.7
Practice subtracting 1 or 10 from a 2-digit number (no regrouping).	2.NBT.B.5
Practice solving problems like $45 - 24$.	2.NBT.B.5

RIT Range: 161-178

Number and Operations

Understand Place Value, Counting, and Cardinality

Standards Alignment

RIT Range: 161-178

Practice comparing numbers (within 100) using the symbols $<$, $>$, and $=$.	1.NBT.B.3
Practice more challenging problems comparing numbers within 100.	1.NBT.B.3
Practice grouping objects by tens.	1.NBT.B.2
Practice finding missing numbers in a list of numbers between 0 and 120.	1.NBT.A.1
Practice breaking numbers apart into tens and ones.	1.NBT.B.2

RIT Range: 179-191

Practice more challenging problems comparing numbers within 1000.	2.NBT.A.4
Find the total value when given an amount of coins or dollars.	2.NBT.A.2
Practice thinking about 3-digit numbers as hundreds, tens, and ones.	2.NBT.A.1
Practice counting by 100s.	2.NBT.A.2
Practice counting by 10s.	2.NBT.A.2
Practice counting by 5s.	2.NBT.A.2
Practice breaking numbers into hundreds, tens, and ones.	2.NBT.A.3

RIT Range: 192-202

Give your brain a workout with these challenge problems on rounding.	3.NBT.A.1
Practice rounding to the nearest ten and rounding to the nearest hundred on the number line.	3.NBT.A.1
Practice rounding to the nearest ten and rounding to the nearest hundred.	3.NBT.A.1

RIT Range: 203-212

Use your place value skills to practice comparing whole numbers.	4.NBT.A.2
Compare multi-digit numbers that challenge your place value understanding	4.NBT.A.2
Sal arranges digits to make the largest or smallest possible number.	4.NBT.A.1
Practice dividing whole numbers by 10.	4.NBT.A.1
Practice multiplying and dividing whole numbers by ten.	4.NBT.A.1
Practice multiplying whole numbers by 10.	4.NBT.A.1
Practice reading and writing numbers written in expanded form. Example: The expanded form of 376 is $300 + 70 + 6$.	4.NBT.A.2

Number and Operations

Understand Place Value, Counting, and Cardinality

Standards Alignment

RIT Range: 203-212

Practice working with whole numbers in written form. For example, "one thousand four hundred three" is the written form of 1403.	4.NBT.A.2
Practice thinking about the value of each digit in a number.	4.NBT.A.2
Practice using place value blocks.	4.NBT.A.1
Practice rounding whole numbers to the nearest hundred or thousand.	4.NBT.A.3
Recognize that in a multi-digit whole number, a digit in one place represents ten times what it represents in the place to its right.	4.NBT.A.1
Practice problems to challenge your understanding of whole number place value	4.NBT.A.2

RIT Range: 213-219

Compare 2 numbers to thousandths based on meanings of the digits in each place.	5.NBT.A.1
Practice identifying place value names for decimal numbers. For example, the 3 in 4.563 is in the thousandths place.	5.NBT.A.3
Practice multiplying and dividing decimals by 10, 100, and 1000. For example, divide 31.4 by 100 to get 0.314.	5.NBT.A.2
Practice multiplying and dividing whole numbers by 10, 100, and 1000.	5.NBT.A.2
Practice multiplying and dividing by powers of 10.	5.NBT.A.2
Practice multiplying and dividing decimal numbers by 10.	5.NBT.A.2
Practice evaluating powers of ten.	5.NBT.A.2
Round decimals and whole numbers to the nearest thousand, hundred, ten, one, tenth, or hundredth.	5.NBT.A.4
Round decimals using number lines. Select numbers that round to a given value.	5.NBT.A.4
Practice using a number line to round decimal numbers.	5.NBT.A.4
Give the number of tens a number is being multiplied or divided by when the decimal is moved to the left or right.	5.NBT.A.2
Practice identifying the value of one of the digits in a decimal number. For example, the 3 in 4.563 has a value of 0.003.	5.NBT.A.1

Operations and Algebraic Thinking

Analyze Patterns and Relationships
